**Re: CC Docket No. 01-92
Ex Parte Letter**

Dear Ms. Dortch,

Our firm has been requested by our colleague Comingde Lee & Gooch to transmit for filing with the Commission the attached ex parte letter on behalf of Oklahoma Western Telephone Company. The letter addresses matters pertaining to the Commission's unified intercarrier compensation proceeding in CC Docket No. 01-92.

Please contact the undersigned if there are any questions regarding this matter.

Sincerely,

John Kuykendall

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Mr. Powell:

We operate a small rural telephone company in Oklahoma. Our state operating revenues consists of access charges billed to interexchange carriers, local service revenues billed to our end users, and state and federal funds necessary to help maintain reasonable rates to end users and to help meet the company's revenue requirements. In accordance with orders issued by the Oklahoma Corporations Commission, the small rural telephone companies in Oklahoma are access providers; therefore, they do not provide any retail toll services to end users located within our state certificated boundaries. Wireless carriers have made the choice to not directly connect to our network but rather connect to the RBOC LATA tandem and have contracted with and pay the RBOC to route mobile to land traffic to our networks. When one of our customers makes a land to mobile call, because we are an access provider and have implemented the mandated equal access requirement, that call is handled by the customer's interexchange carrier. All toll calls including intraMTA wireless calls are handled by the customer's interexchange carrier of choice. My company bills the interexchange carrier access in accordance with our interstate and intrastate tariffs as appropriate, the toll provider bills the retail revenues to their customer. It is our opinion that the toll provider should be responsible for any termination charges and or transport charges associated with their traffic. In this case the toll provider is the originating carrier and is responsible for payment of all transport and termination charges to other LEC's and to wireless providers on whose network the call terminates.

We believe our interpretation is consistent with the law the FCC's rules and orders that the access regime principles and the reciprocal compensation principles of Section 251 (b)(5) do not apply to the same traffic. Since the interexchange land to mobile traffic is handled in accordance with the access regime that traffic would not fall within the reciprocal compensation regime, as such then the wireless carrier terminating the interexchange traffic should look to the interexchange carrier for any compensation and not the LEC.

ORF-11-11

Please confirm to us that our interpretation and application of the access regime and reciprocal compensation principles to traffic as described above is consistent with FCC rules, orders and the law.

I look forward to your prompt response, thank you.

Sincerely;

A handwritten signature in black ink, appearing to read "Michael Van Horn". The signature is fluid and cursive, with the first name "Michael" being more prominent than the last name "Van Horn".

Michael Van Horn
President
